## Summary

Community Management Expert with 5+ years of experience cultivating high-retention SaaS communities and driving product adoption. Specialized in Relationship Management, Behavioral Marketing, and building centralized feedback loops to translate user sentiment into actionable product insights. Proven ability to execute Event Planning and Content Strategy that scales enterprise-level engagement and ensures long-term Customer Success.

## Work Experience

### Creator and Community Lead

*May 2026 – Present*

FIRECRAWL, REMOTE

- Cultivate and launch Firecrawl's entire community motion from zero, establishing a foundation for Customer Retention and Relationship Management.
- Execute the design of stackable Ambassador, Firestarter, Affiliate, and Student programs to drive product adoption through community engagement.
- Collaborate with 10 tech creators via Influencer Outreach and a points-based milestone system to scale brand presence.
- Report a 4x increase in YouTube-attributed community referrals (1.7K to 7.2K weekly) by implementing a data-driven Content Strategy.
- Build TubeMonitor, an internal Analytics tool to track creator engagement and ambassador performance for competitive share-of-voice reporting.
- Execute a comprehensive community ops framework using Typeform and Notion to streamline the intake and coordination of 100+ members.

### Community and Program Manager

*May 2023 – December 2025*

GOOGLE, BANGALORE

- Cultivated and scaled a 3,500+-member community, driving Google technology adoption across 150+ partner organizations to improve retention.
- Executed growth strategies that tripled the institutional partner network from 100 to 300+ in 12 months.
- Ran 40+ workshops per quarter for 5K+ attendees, including AMAs and technical enablement sessions to foster Relationship Management.
- Led community-driven adoption campaigns resulting in 70K+ Vertex AI activations and 60K+ Gemini API developer sign-ups.
- Designed a high-impact pilot program for government schools, achieving 60% better student outcomes through Social Media Strategy and educational content.
- Provided on-ground community support and Event Planning for the Guinness World Record Agentic AI hackathon for 2,000+ developers.

- Analyzed community operations to automate 20+ hours per week via Apps Script, reducing partner onboarding time by 30%.

## **Community Manager**

*May 2022 – May 2023*

GOOGLE, BANGALORE

- Designed an engagement strategy that exceeded quarterly community OKRs by 50% with 8% month-over-month growth.
- Built a centralized feedback loop using Buganizer to route member input into product-improvement tickets, enhancing the Customer Success cycle.
- Managed a 100+-partner community distribution program and ran daily triage to ensure platform stability and Relationship Management.

## **Community and Partnerships Lead**

*November 2020 – May 2022*

CODECHEF, BANGALORE

- Built CodeChef's campus community network from 100 to 300+ colleges globally in 12 months.
- Recruited ambassadors and designed engagement rituals, including the College Offering Initiative to drive user adoption.
